“He’s like a whole other child and we are amazed at his progress every single day”

Reasons to rejoice at Time 2 Shine: Jack’s Story

When our son started at Time 2 Shine Therapy 2 months ago his only word was “open”. Now, not only does he call us “mama” and “daddy”, he is putting two words together to request things and to name things. He can share his toys with his brother, wait, and take turns. He also requests to do things we used to have to force on him like coloring. He was in diapers

24-7 when he started here and is already daytime potty trained. He is much calmer in general and has fewer tantrums. He is a happier boy, which makes life easier for everyone! He’s like a whole other child and we are amazed at his progress every single day.

Krista & Mark

Thank You!

Time 2 Shine thanks Stacey Christopherson, speech therapy student from Augustana. Stacy completed her internship last winter and is now in graduate school for Speech Language Pathology at Wichita State!

Thanks to everyone who has supported Time 2 Shine through donations and grants this year!

Therapy Tip of the month

Get an old purse with many pockets, inside and outside, with zippers and snaps. Fill them with trinkets and toys and let your child have fun zipping, snapping and poking around the pockets to empty them all! Great fine motor activity for all ages!

Suggested to us by one of our moms – thanks Kipley!!!
